## Madison Schools To Open On Monday

Teachers Available,  
Strike in 4th Week;  
Hearing Set Tuesday

Classes in the Madison public school system will begin by next Monday at the latest, despite the outcome of court action tomorrow morning.

A hearing on a suit for a declaration of rights filed by the board of education is to be resumed at 9:30 a.m. Tuesday in Madison county circuit court before Associate Judge Foss Meyer when striking teachers are to be called to testify on their contractual status.

Dragich said a sufficient number of teachers is available to conduct school on a full-time basis. He said classes may start earlier if an agreement is reached with the Madison Federation of Teachers.

**Graduate Teachers**  
Use of administrative personnel should not be required, the superintendent added, as the administration has received applications from graduate students studying for master and doctorate degrees at surrounding universities and from new teachers who graduated in August and have not been placed in jobs.

The staff also will include new teachers employed during the summer and other faculty members who individually have signed and returned contracts.

No negotiation session is scheduled for this week as the strike entered its fourth week today.

About 30 teachers have been summoned to appear in circuit court tomorrow and may be held in contempt of court if they refuse to do so.

They also were subpoenaed to appear last Thursday at the first hearing in the suit for a declaratory judgment, but none appeared on the advice of their attorney who entered a motion to quash the subpoena. The motion was denied by Judge Meyer.

## Two Madison Fires at Same Time Caused by Arsonist

Fires that broke out almost simultaneously Friday night in two vacant buildings less than a block apart in Madison—resulting in almost total destruction of one of the buildings—were set by an arsonist who apparently used railroad fuses, Madison Fire Chief E. J. Miller said today.

First alarm for a fire in an old storage building in the 1400 block of Fourth street, just east of State street, was received at 9:05 p.m.

The building, consisting of a roof and three walls but no floor, was surrounded by three railroad freight cars, was completely ablaze when firemen arrived.

Miller said all three freight cars were burning furiously, he said.

As firemen arrived at the scene they received a report of another fire in a two-story brick building on State street, between Fourth and Third streets.

**Venice Firemen Called**  
The Venice fire department was called for assistance and equipment dispatched to the second fire. Miller said the fire in the building on State street was extinguished without extensive damage.

The fire also burned several telephone lines which knocked out service for a short time in the immediate area.

Firemen fought the blaze for nearly six hours, remaining at the scene until 3 a.m. Saturday.

**Boy Hit by Train**  
A 14-year-old boy running across the railroad tracks to the scene of the blaze was struck by a southbound GM&O passenger train at 10:30 p.m.

Thomas Fifer, son of Mrs. Ruby Fifer, 1208 Douglas street, was rushed to St. Elizabeth Hospital for treatment for abrasions to his chest, right elbow and back, a cut to his forehead and an injury to his left shoulder.

He was later transferred to Cardinal Glennon Hospital, St. Louis.

Railroad workers told Madison police a Terminal Railroad Association switch engine was traveling in the opposite direction as the boy dashed in front of it and into the path of the five-coach passenger train.

Also at the scene of the blaze on State street, a truck driver, James Mauney, 36, of Hamilton, O., was arrested after he tried to ram his vehicle into a police car as the officer was directing traffic to detour off State street.

The officer had to jump to his feet and drive the police car out the sidewalk.

**Police File Charge**  
The trucker was charged with driving while intoxicated and disobeying an officer.

Miller said he would set no estimate of damage on the two buildings since both had not been used for many years, were in a bad state of disrepair and were to be condemned.

At least one witness reported that he saw a man running from the building on Fourth street shortly before it burst into flames.

## Hearing Set on 20-Year City Plan

Public Session to Be Oct. 14 on Program To Guide Area Growth

The new master plan for long-range development of Granite City and its immediate environs was formally approved Thursday afternoon by the Granite City Plan Commission which set Oct. 14 as the date of a public hearing on the plan.

The hearing will be held in the city council room at city hall, beginning at 7:30 p.m.

William F. Hoelscher, chairman of the Plan Commission, said representatives of four major city tax agencies that participated in development of the planning guide will be expected to testify at the hearing.

Tax bodies sponsoring the development program, which was prepared by Southwestern Illinois Metropolitan Area Planning Commission in a two-year study, included the city, Granite City School District 9, Granite City Park district and the Housing Authority.

**Will Recommend Acceptance**  
Hoelscher said that after the public hearing the Plan Commission and SIMAPC will incorporate in the plan any changes or additions deemed necessary as a result of testimony at the hearing.

The Plan Commission then will recommend to the city council that the plan be officially accepted.

Hoelscher said that in addition to the long-range plan, the city will have a short-range plan.

## United Fund's Campaign Cabinet Sets Division Goals

Campaign division quotas for the Tri-Cities Area United Fund were assigned by General Chairman Thomas R. Remington during a luncheon Friday at the Rose Bowl for the campaign cabinet.

Total goal for this year's campaign—scheduled to start Oct. 7—is \$387,104, an increase of \$104 over last year's.

Also present for the campaign cabinet were—

Albert H. Froelming, chairman of the commercial division; Leo H. Konzen, vice-chairman of the professional division; Thomas J. Kolesa, chairman of the public and promotion committee.

Milonski, last year's general chairman and vice-chairman of the manufacturing division, directed the AFL-CIO Community Services, and John D. Solenberger, UF executive director.

The group previewed an eight-minute campaign film, "Grasping the Gift of Hope," narrated by Bob Richards.

The division quotas for this year's campaign—

Industrial, \$141,500; Commercial, \$170,000; Professional, \$10,000; Public services, \$19,000; Residential and rural, \$2500; Madison, \$8800 and Venice, \$2200.

It was announced that Mayor Maerz and Mayor Lee will again head the divisions for the municipalities of Madison and Venice.

Four other building projects should be completed for the 1972-73 school year, the report adds. These should include a new 430-student elementary school in Planning District 8 to cost \$605,500; a new 450-student elementary school along Route 208 to cost \$644,200; a new 14-classroom addition to Grigsby Junior high at a cost of \$182,200; and a new 24-classroom addition to Grigsby Junior high at a cost of \$182,200.

During the 1970-71 year, the plan report recommends, the school district should phase out Logan Annex and Central Junior high schools.

Conversion of Coolidge Junior high school to senior high use; phase out Central Junior high, Logan Annex and Stalling elementary; addition of three classrooms to Logan elementary; addition of 14 classrooms to Grigsby Junior high; addition of 21 classrooms to the senior high school; construction of four new elementary schools with a total of 81 classrooms; construction of one new junior high school with a total of 11 classrooms; and complete payments on the 65-acre tract at Mayville-Nameoki roads.

Major construction during this period would include a new elementary school of 27 classrooms for 780 students in Planning District 5 during the 1969-70 school year at an estimated cost of \$1,069,900.

## Bottled Gas Leaks; Man Lights Cigarette

Ralph Brown escaped injury about 2 p.m. Saturday when escaping bottled gas was touched off as he lit a cigarette in the basement at his new home, 3224 Newell drive.

Firemen said the small tank was carried outside. Plumbers had been at work on the new, vacant house on Friday, and it is believed the tank might have been left on or developed a leak.

Damage was estimated at \$25.

Earlier Saturday, about 12:40 p.m., firemen were called to the Kroger Co. parking lot at Nameoki Village, where a 1956 auto belonging to Charles Poole, 2324 Zippel drive, caught fire due to carburetor backfire.

The loss was set at \$25.

## House Burglars Busy; Get Loot at Seven Residences

Burglars escaped with only a few items in a raid on a Venice home where occupants were asleep early Saturday.

Police said the burglars were not satisfied with \$130 cash loot, but also hauled away a color television set and tried to make off with a combination stereo-tv set and a sewing machine before awakening.

Guests at 4:20 a.m. Saturday.

Venice police found the stereo-tv set in the front yard, and the sewing machine had been moved to the rear door. Two men were seen to drive off in a light-colored auto. They took with them an 18-inch color set and \$125 taken from Mrs. Guests purse and \$5 from her husband's shirt pocket.

The guests seven-year-old son told police one of the burglars was tall and was wearing tennis shoes.

Mrs. Dorothy White, 538 Meridian street, reported to Venice police Saturday afternoon that a portable television set was missing from her home.

There was no sign of a forced entry. Mrs. White said she had been away for a week.

A silverware set for 12, a silver serving tray and three silver dollars were stolen in a burglary at the home of Edna Melton, 2445 Stratford lane, after 7 p.m. Thursday, she reported to the Madison county sheriff's office at 8:45 p.m.

The entire house was ransacked. Entry was gained by prying the door to the family room.

Homer Thruau of 10 Country Lane court, reported at 10:25 p.m. Friday that burglars forced the rear door to enter his home after 6:30 p.m.

Taken from three bedrooms were a platinum wrist watch with diamonds, a clock radio, a tape recorder, an electric razor.

## Friday the 13th Unlucky For 18 Vehicle Owners

Friday the 13th was an unlucky day for owners of 18 autos and trucks as nine accidents occurred on Granite City streets during the day. The last came at midnight.

The first accident occurred when a pickup truck owned by David Bradley, 219 Missouri avenue, was damaged when it was struck by a hit-and-run tractor-trailer truck at 2:30 a.m.

An East Side Levee District auto driven by Ernest A. Brown, 2546 Hemlock avenue, and an auto driven by Lawrence Stajdhar, Collinsville, were involved in an accident at 11:25 a.m. at 20th street and Madison avenue.

While backing into a parking space, an auto driven by Bernice M. Allen, Glen Carbon, struck the left rear fender of a parked auto of Ben Miller, 2453 Hodges avenue, at 1:45 p.m. in the 1800 block of Edgemoor avenue.

Autos driven by Patricia Wyman, 2028 Russell street, and Earl P. French, 1614 Clark avenue, collided at 3:35 p.m. at 21st street and Madison avenue.

Upon entering a parking lot at 20th street and Grand avenue, the brakes failed on an auto driven by James Record,

shoplifter and three juveniles were arrested.

Burglars who entered the home of Mr. and Mrs. Jerry Guest, 538 Salvester street, through an unlocked door weren't satisfied with \$130 cash loot, but also hauled away a color television set and tried to make off with a combination stereo-tv set and a sewing machine before awakening.

Guests at 4:20 a.m. Saturday.

Venice police found the stereo-tv set in the front yard, and the sewing machine had been moved to the rear door. Two men were seen to drive off in a light-colored auto. They took with them an 18-inch color set and \$125 taken from Mrs. Guests purse and \$5 from her husband's shirt pocket.

## Propose 8-Member Cut in GC Council

Petitions Seek Vote On Plan to Reduce Aldermen by Half

A referendum vote on a proposal to cut the membership of the Granite City Council in half under an Illinois statute permitting such action in cities of less than 100,000 population are in circulation and are being readied for filing, it was learned by the Press-Record.

The petitions, on which a total of 1500 names will be required to bring about a vote on the proposal, are being circulated by approximately 30 persons said to be members of an "informal group of people who believe they can do the city some good."

Warren Decatur, vice-president of R. Dron Electrical Co. and chairman of the group, said that petitions are to be turned in to him today so that they can be prepared for filing with the city clerk's office. He said that more than 500 signatures had been obtained on petitions up to Friday noon. Circulation of petitions was begun Thursday.

The special election will be requested in conjunction with the Nov. 5 general election so that no additional expense will be incurred, Decatur said. Under the law the petitions must be filed with the city clerk at 5 p.m. Friday.

The petitions declare that "it has become apparent that the size of the city council of the City of Granite City is too large to be effective and is creating confusion which has impeded progress in the city."

They state also that "having two aldermen serve each ward creates an undesirable overlapping of authority and a duplication of responsibility."

A reduction by one-half of the number of aldermen now serving the city would result in annual savings of at least \$15,000, the petitions state. Granite City now is served by 16 aldermen, two for each of eight wards.

The proposed reduction of the number of aldermen is sought under Section 5-2.2 of the Illinois Municipal Code of 1961 which provides that the number of aldermen shall not exceed one-half the population of the city.

Decatur said that the group sponsoring the move "is not a specific organization, but a group of people who believe that by this action they can do the city some good." He said the group represents "all" of activity—labor, business, industry and civic.

The group specifically compared the cost of council operation to that of school board administration by pointing out that salaries of 16 council members during a four-year election period approximates \$149,760. They administer an annual budget of less than \$2.5 million.

On the other hand, it was pointed out, school board members receive no salary and administer a budget of more than \$11 millions—nearly 80 millions more than the city budget.

Reduction of the council to eight members would cut the current four-year cost of alderman salaries to about \$75,000, a savings of more than \$15,000 per year.

## \$15 Millions in New Schools Necessary by 1985

By HARRY BARNES

(Last of a Series)

In order to accomplish a school building program of such magnitude as that projected for Granite City School District 9, the new Granite City master plan, a year-to-year program of financing involving at least two bond issues and an increase in the building fund tax rate would be essential.

The development plan prepared by Southwestern Illinois Metropolitan Area Planning Commission to guide growth and progress of Granite City until 1985 estimates that additional facilities which must be provided during that period will exceed \$15 millions.

What is more, the report emphasizes, these estimates are based on past and present records "and do not reflect or project probable additional costs produced by inflation or increased construction costs" that will occur in the future.

The plan report, after detailing projected needs of the school district which have been outlined in previous articles of this series, says that the need for action is immediate. The report sets up a five-year program for the 1968-1974 period and estimates the cost of this first phase of building expansion at \$5,751,999 on the basis of current construction costs.

**Big Enrollment Increase**  
During the next five years, the report states, "it is anticipated that enrollment will increase by 2600 students." In order to accommodate this growth, it is noted the school district is giving consideration to converting to a 6-2-4 grade system.

Recommendations for the five-year period, based on conversion of the district system to 6-2-4 grades, include:

Conversion of Coolidge Junior high school to senior high use; phase out Central Junior high, Logan Annex and Stalling elementary; addition of three classrooms to Logan elementary; addition of 14 classrooms to Grigsby Junior high; addition of 21 classrooms to the senior high school; construction of four new elementary schools with a total of 81 classrooms; construction of one new junior high school with a total of 11 classrooms; and complete payments on the 65-acre tract at Mayville-Nameoki roads.

Major construction during this period would include a new elementary school of 27 classrooms for 780 students in Planning District 5 during the 1969-70 school year at an estimated cost of \$1,069,900.

**1970-71 Requirements**  
During the 1970-71 year, the plan report recommends, the school district should phase out Logan Annex and Central Junior high schools.

## Mexican Fiesta Here Set for Saturday

Commemorating the 18th Anniversary of the Independence of Mexico, the Mexican Honorary Commission of Granite City will sponsor the annual Mexican Fiesta at 8 p.m. Saturday in the Venice-Madison American Legion Hall, 740 Broadway, Venice.

Miss Ana Maria Barning, Mexican Consul in St. Louis, will be the special guest of honor at the traditional affair, which is to be open to the public.

Tickets, priced at \$2 per person, may be purchased at the door, or obtained in advance from Commission members for \$1.75.

Highlighting the evening will be a variety show, featuring local youngsters and adults in authentic costumes performing popular and legendary folk songs. Following the show, those attending are to be entertained with music for dancing, played by a Latin American ensemble.

Specialty Foods and other refreshments will be available, according to Steve Ortiz, Commission president, who noted that the fiesta has increased in popularity each year since it was first presented on an annual basis.

Preparing the artistic group in preparation for the show is Maria Castillo Scanlan, assisted by Antonia Lopez, with Dorothy Robles as wardrobe supervisor. Other committee chairmen include Linda Kitchin, Frances Becerra, decorations; Ted Antoff, tickets; Ruben Mendoza, service; and Jose Becerra, refreshments.

Frank W. Ortiz will serve as master-of-ceremonies, and the national anthems of the United States and Mexico will be sung by Mrs. Scanlan and Norma Mendoza.

The fiesta observes the 18th anniversary of Mexico's independence, which started Sept. 16, 1810, when a small group of freedom fighters, without arms or equipment, began a march to the Guajunato mining center.

At Atotonilco, Mexico, the leader of the revolution, Don Miguel Hidalgo y Costilla, gave the patriots a cloth flag bearing the image of the Virgin of Guadalupe, which was carried with them as the symbol of freedom. Farmers working in the fields joined the impoverished arm, along with the San Miguel de Grande regiment of the Reina.

Upon reaching Celaya, Mexico, the small band of patriots had grown to more than 20,000, who marched in review before the revolutionary leaders and began the lengthy battle for liberty.

Performers and Numbers  
The youthful and adult performers and the numbers they will present Saturday evening, include:

## Lax Enforcement Promotes Crime, Candidate Says

The growth of criminal acts in Madison county has reached the point where "no one's property or family is safe" and the time has arrived for a vigorous prosecution of the criminal element to "re-establish the principle that men are accountable for what they do," R. W. Griffith, Alton attorney and Republican candidate for state's attorney of Madison county, told a luncheon meeting of the Granite City Optimist Club Thursday.

Griffith, a former resident of Granite City whose father served as state's attorney and later a Third Judicial Circuit judge, blamed the current crime wave on lax prosecution of defendants arrested in felonious crimes and quoted statistics on cases disposed of by the state's attorney's office at Edwardsville during the past two years. Griffith opposed incumbent state's attorney, Leonard Democrat, of Granite City, in the state's attorney contest in the Nov. 5 general election.

Griffith told Optimist Club members that the principal issue in Madison county is "whether or not we have something called law and order. He said that the newspapers "are full of crimes committed, but their pages are empty in regard to punishment."

He alleged that during 1967 a total of 191 persons were named in felony charges, but that charges against 93 of these were either dismissed or not prosecuted while in the same period to June 1968, a total of 122 persons were named on felony charges, with charges dismissed or not prosecuted against 59 of these. In 1967, he said, only 11 jury trials of criminal cases were held with seven cases lost and convictions in only four.

He said there were only ten jury trials up to June this year, with five losses and five convictions.

Griffith blamed the Democratic state's attorney administration not only with inadequate prosecution, but said it also has lapsed considerably in proper representation of the county passed by a branch of our local government has been declared illegal," he said, adding that the state's attorney "has been unable or unwilling to present to the board of supervisors an ordinance sufficient to clean up the garbage problem in our county."

"Even the last action to put the question on the November ballot was declared by the court to be invalid because of improper procedure on the part of the board of supervisors which was advised by the state's attorney," Griffith said.

He also charged the present administration with failure to recommend proper traffic controls for unincorporated areas, failure to advise county officials of proper investment of tax monies and a lack of advice concerning bidding procedures.

The candidate pledged himself to an intense program of prosecution of criminal defendants, recommendation of a land-fill ordinance based on provisions of Illinois statutes for enforcement, a uniform traffic code for unincorporated areas, an investment program for idle county funds and a plan for increased police protection in unincorporated areas.

Introduced by David John, program chairman, the guest speaker was welcomed by Fred Cunningham, Optimist president, who presented a second guest, Col. Charles A. Walters, former Granite City Army Depot commanding officer.

The luncheon program concluded with induction ceremonies for two new members—Ted Ellerman, assistant administrator, St. Elizabeth Hospital, and Wilbur J. Ireland, assistant executive, Ullrich District, Cahokia Mounds Boy Scout Council.

Arthur R. Roseman conducted the initiation, assisted by sponsoring members, E. E. Vehil Jr. and Frank Rea. Twenty attended the meeting, held in the YMCA.

## Food Stamp Suit Points Out Responsibility

In a case involving a Chicago supermarket, which appealed its disqualification from the Food Stamp Program, a federal judge has ruled that a store owner is responsible for actions of his employees. It was pointed out today by officials of the Federal Marketing and Consumer Service office in East St. Louis.

U. S. District Court Judge J. J. Hoffman made the ruling in the Food Stamp disqualification case of the Market Basket Store in Chicago. The store appealed its 30-day disqualification.

In St. Clair county several warning letters have been issued to merchants who have been discovered in minor infractions of the rules of the Stamp Program.

In Madison county six stores have received temporary disqualifications of 30 days to six months since the inception of the program here two years ago. This information was given out by Knoble Thomas of the U. S. Dept. of Agriculture, whose Consumer and Marketing Service has authorized for Food Stamp participation 415 stores in this area — 237 in St. Clair county and 178 in Madison county.

Under the program, stamps are exchanged in a store for food items. Most disqualifications occur when the store permits the sale of non-food items, which are illegal.

In the Chicago court case, the program claimed that evidence failed to indicate or justify that the knowingly or willingly violated or permitted violation of the Food Stamp Program by his employees.

Judge Hoffman ruled, however, that "corporation is responsible for the acts of its agents even though the acts are committed without the knowledge of the corporation."

## Warrior Gridders, Althoff Crusaders Battle to 13-13 Tie

Granite City high school's Fighting Warriors grid team fought the favored Belleville Althoff Crusaders to a 13-13 tie in the season's opening tilt Friday evening on the local field.

The Warriors displayed sharp offensive and defensive maneuvers, demonstrating they had worked hard for this game and were trying to shake the losing streak of last season.

The Crusaders scored early in the game after the Warriors kicked off to the Althoff 38 yard line. There Bill Dobbs was stopped cold on a try up the middle. Next was a one yard gain by Bob Tribout.

Then it happened, quarterback Ron Piel pitched out to halfback George Brown, who scrambled around the Warriors end for a 66 yard touchdown. Warrior Frank Bechtel blocked the extra point to keep the score 6-0 with less than two minutes played in the game.

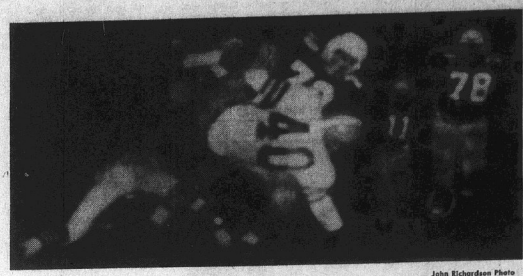

When the Crusaders kicked off to the Warriors, Jim Jones caught the ball deep in his own territory and managed to get to the GC 33 yard line. He carried on the first down to the Warrior 42 yard line missing a first down by less than a foot.

On the second down, Capt. Roger Belshie attempted a pass before carrying the ball through the middle for a first down the following play.

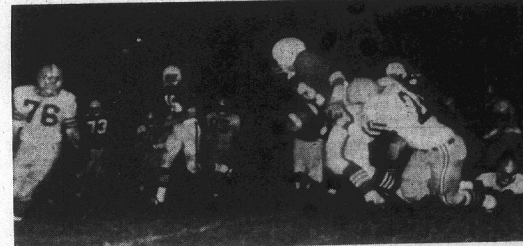

In the following set of plays Mike Bradford and Jim Greenwald picked up three yards apiece on plunges up the middle, before Belshie carried out to Jim Rollins, who pitched the ball to the Althoff 36 yard line.

In penetrating the Crusader territory, the Warrior gridders kept the drive going and in a few plays took the ball to the Althoff three yard line.

On the next play Jim Greenwald, dove across the middle for a touchdown and soccer style kicker Jerry Monahan put

**SLIDING OFF A TACKLER** is Granite City high school Fighting Warrior Jim Jones as he drives for extra yardage in Friday's game against Belleville Althoff at the GCHS field. The teams tied 13-13. Crusader (78) Greg Gundlach awaits the Warrior runner.

**DUMPING BALL CARRIER** is GCHS Warrior Tim Wallace (70) in action at the Granite City high school field Friday evening when the two teams played to a 13-13 score. The ball carrier (40) George Brown gave the Warriors trouble with his running ability. Coming up to assist are Warriors Dan James (78) and Jerry Monahan (11).

The Warriors earned 11 first downs to the Crusaders' 10, leading them 105-165 in rushing but trailing 20-82 in yards gained passing, connecting on only two of ten passes and having one intercepted while Althoff completed seven of 12 aerials.

Granite City punted six times for an average of 30 yards and Althoff averaged 36 yards for four punts. Althoff lost two fumbles while the Warriors held onto the ball on every play.

Penalty yardage totaled 18 yards against GCHS and five against Althoff.

## SIU-SW Hosts British Soccer Team Saturday

The British soccer team arriving at SIU-SW this week for a crack at the Cougars Saturday displays a wealth of talent stemming from a soccer tradition dating back to 1886.

St. Luke's College of Exeter is one of the oldest and is considered one of the finest football soccer clubs in England outside of Oxford or Cambridge.

The 20-member team headed by Alan Pinkney, the captain, represents the best of six soccer teams fielded by the British college. Several of the players, including Pinkney, also play in English League Football and compete with semi-pros in open leagues.

Sleeping in the tradition of Evelyn H. Lintott (1905-7), who captained the English Olympic team of 1907, the British footballers also bring along a different set of rules that could be telling on the Americans.

As agreed in contracts set up by the five American teams facing the visitors, all matches will be played under international rules. The notable differences are 45-minute halves instead of 22-minute quarters as dictated by American rules, only two substitutes allowed during the contest as opposed to open substitution, SIU coach Bob Guelker, instrumental in arranging the tour as well as being its official director, is busily conditioning his charges to the new rules.

"Among other things," kidded Guelker, "my boys are doing a few extra push-ups and eating a little more cereal each morning."

Pinkney, the English captain, may get an English Amateur Trial, if not an English Captain, considered one of the college's greatest goalkeepers and twice a player for an English League side, also is among the contenders.

They will be supported by David Mills, a talented striker or mid-field player; Derrick Norton, club captain last year and a powerful, left-footed striker; and Paul Wisbey, a "moyonant performer" who has played organized soccer since childhood.

Club guidance is given by Walter O. Rice, team president and counterpart to Guelker, and student chairman Peter Morand, who also is a player.

Lake's has won many honors in England's semi-professional Western League and the professional Western League.

Arrived against these formidable opponents Sept. 21, the Cougars of SIU-SW, who established a 3-3 record last season in their first year of intercollegiate play, will have "something tough to dig their teeth into," observers believe.

Guelker merely smiles and says: "The subject is open for debate."

## MHS Eleven Surprised 27-0

"We outdid them, but they had perfect information on what we tried to do and we were never able to put together a sustained drive," Madison high school football coaches summarized after a surprise 27-0 loss to the O'Fallon Panthers.

The routine game for the Trojans, opening their 1968 season, was not as disastrous from every standpoint. Madison players suffered no injuries, for example.

But the outcome has sent MHS strategists back to the drawing board in the hope of beefing up both the offense and defense before the second game of the campaign, a visit to Roseary high school of St. Louis Saturday.

"We threw them for many losses, but they were deadly on the short passes," Line Coach Charles Steptoe related.

Trojan linebackers too often left "wide open spaces" which enabled the passing duo of Quarterback Vince Ansell and End Marty Poepping to resemble Jim Hart and Jackie Smith of the grid Cardinals.

O'Fallon a Newcomer  
The defeat followed a long pre-season period in which Madison conducted twice-daily practice drills during a teacher strike. The opposing team was starting only its second year of varsity competition.

Steptoe noted that "our boys didn't block as well as we thought they would. O'Fallon found weaknesses at the ends and ran play after play around them."

"Our passing looked good in spots, but penalties really hurt us. We lost 85 yards in penalties alone to their 27, and lost one fumble deep in our own territory. We just didn't play up to the level we are capable of playing."

It was a standoff for the first period, but in the second quarter O'Fallon registered on two drives. Bob Stanley scoring on a 33-yard run and Ansell on a 23-yard run.

Poepping, who earlier had sparked on a 47-yard pass play, scored on a 21-yard pass in the third quarter. Rick Ott dove across the goal from the one-yard line in the final quarter.

Kick Attempt Blocked  
Three extra points were booted by Greg Gardan. The fourth attempt was blocked by William Campbell.

Third down plays proved crucial, the host team usually connecting on them for a first down while the Trojans followed long gains with penalty calls that sent the line of scrimmage moving in the wrong direction.

MHS never seriously threatened until late in the game. Time running out with the ball

on the Panther 15-yard-line. Coach Alvin Vonder Haar said his Trojans played well despite the score and "never gave up. Even in the last minutes, we were still charging hard. An example was the extra point being blocked."

On the ground, Jim Scott carried the ball four times for 51 yards, Harold James eight times for 24 yards, Dale Clinton six times for 21 yards and Wayne Shaw five times for 20 yards.

O'Fallon had 14 first downs to Madison's seven. The host team had a total of 326 net yards, including 168 yards rushing and 158 yards passing. Madison netted 307 yards including 164 yards rushing and 43 yards passing.

O'Fallon completed seven of 13 pass attempts and Madison completed three of eight. The Trojans had three passes intercepted and the Panthers suffered two interceptions.

Madison punted three times for an average of 33 yards and O'Fallon twice for an average of 45 yards. Each team lost one fumble.

The bride's parents are Mrs. Helen Lupa of East St. Louis, and Leonard Lupa of Madison. Mrs. Pavlow is a son of Mr. and Mrs. John Pavlow sr., 1737 Market street, Madison.

The ceremony was performed at 9 o'clock by the Rev. Raymond Malec and the wedding breakfast and reception were held at the Polish Hall in Madison. The bride was given in marriage by her brother, Leonard Lupa Jr.

White satin faille was used to fashion the bride's gown. It was designed on Empire lines with a high rolled and jeweled neckline trimmed with pearls and crystals, long tapered sleeves cuffed with the jewel trim, and a full court train. A silk illusion veil was held in place with a double crown of pearls and crystals and the bride carried a bouquet of white orchids, white Butterfly roses and staminate.

Miss Linda Lupa, a sister of the bride, as maid of honor, and Mrs. Gary Burns, Miss Carol Rakowski, Miss Mary Catherine Rudelic and Mrs. Louis Zeffoff, bridesmaids, wore identical gowns of sparkling turquoise. Styled on princess lines with double rolled collars of self fabric and matching satin, they had short sleeves and wide panels of matching satin falling from the shoulders to the hem lines. Bows of satin with pouff veils complemented the dresses and they carried bouquets of mixed blue and orchid flowers with silver roses and trailing ivy.

Two little flower girls, Kathy and Lynn Rakowski, cousins of the bride, wore white nylon floor-length dresses with turquoise satin sashes. Turquoise bows were in their hair and they carried white flowers with turquoise trim.

### Miss Polley, Stephen Diak Exchange Wedding Vows

The wedding of Miss Marysly Polley, daughter of Mr. and Mrs. Richard A. Polley, 2531 Pontoon road, and Stephen James Diak, a son of Mrs. Mary Diak, 1405 Iowa street, took place Saturday morning at St. Joseph Catholic Church. The ceremony was performed by the Rev. Peter Bertoldo at 11 o'clock. Arrangements of white flowers and greenery on the altar, flanked at either side by Emerald trees, provided the setting for the service.

A floor-length Empire gown of ivory rayon peau was worn by the bride. It was designed with an oval neckline and long sleeves. Peau d'ange lace accented the front of the bodice and extended down the front of the "A" line skirt. A full detachable Watteau train outlined in matching lace fell softly to the floor and a matching pillow trimmed with lace and pearls held secure a bouffant veil of illusion.

A modified cascade of white gladiolus and stephanotis with an orchid corsage center was carried by the bride.

Mrs. Pauline Stark presided at the organ and accompanied the vocalist, Mrs. Alan Dale.

The honor attendant was Mrs. Terry Papa, a sister of the bride, and Mrs. Judy Diak, a sister-in-law of the bridegroom, Mrs. Dolores Streckfuss, the bridegroom's sister, Mrs. Marge Burdge and Miss Linda Reiske served as bridesmaids.

The gowns were made alike. They were in shades of avocado. Floor-length, they were designed with Empire bodices, oval necklines, short sleeves and "A" line skirts. The back necklines were marked with large bows holding soft

flowing panels. Matching fabric roses, petal clusters and veiling completed their costumes. They carried cascade bouquets of Talamona gladiolus and variegated ivy.

A little flower girl, Jennifer Price, niece of the bride, dressed like the older attendant, carried a basket of petals.

Jeffrey Macko served as ring bearer.

Both young people are graduates of Granite City schools, and Mr. Diak is employed as a meat cutter by the Tri-City Grocery in Belleville. The jewel neckline of scalloped lace was embellished with seed pearls and the Empire bodice of lace had long tapered sleeves. Lace motifs, beaded, were scattered throughout the front of the skirt and a cathedral train of lace flowed gracefully down the back. A matching pillow was attached to a melody-length veil of imported illusion and the bride held an old fashioned colonial bouquet of stephanotis and white satin ribbon.

## Interest Runs High for Absentee Balloting

Intense interest in absentee voting in the Nov. 5 general election has developed at this early election stage among persons in United States service, who already have filed 637 applications for absentee ballots, County Clerk Eulalia Hotz reported today.

With less than six weeks remaining in which applications for absentee ballots still may be received by absent Madison county residents in service, the large number of ballot requests already received is a certain indication of a record absentee vote, Miss Hotz said.

The heavy volume of absentee ballot requests developed as

the county clerk's office swung into its full program of election preparations, including an extensive schedule of voter registration and arrangements for absentee voting. Special registration centers have been arranged throughout the county as a matter of convenience to new voters and presently registered voters who must correct their records by either a change of name or change of address.

**Deadline To Register**  
Applications for absentee ballots by Madison county residents who are in service is the first phase of the Nov. 5 election schedule. July 29 was the first date upon which persons in service could mail applications to the county clerk's office for absentee ballots.

Miss Hotz pointed out that Oct. 7 will be the first day that civilian voters may file application for an absentee ballot, either by mail or in person.

Oct. 7 also is the last day for members of new registrations or registration record changes by the county clerk's office, which has been set as the deadline for applying for absentee ballots by both persons in service and civilians.

All civilian voters who plan to vote an absentee ballot must be registered. Miss Hotz noted that county residents in United States Service need not be registered, although they must meet the requirements of one year in the state, 90 days in the county and 30 days in the precinct in which they lived immediately prior to entering service.

**Define Service Voters**  
The term "member of the United States service" applicable under the absentee voting law, Miss Hotz said, includes members of the Armed Forces while in active service and their spouses and dependents when residing with or accompanying them; members of the Merchant Marine of the United States and their spouses and dependents; civilian employees of the United States in all categories serving outside the territorial limits of the United States and their spouses and dependents if living with or accompanying them; and members of religious groups or welfare agencies assisting members of the Armed Forces, who are officially attached to and serving the Armed Forces, and their spouses and dependents.

Miss Hotz said that men and women in United States Service who are home on leave may vote in person at the county clerk's office from Sept. 21 until noon Nov. 2, during daily hours of 9 a.m. until 5 p.m. The clerk's office customarily remains open from 9 a.m. until noon on Saturday, Nov. 2 for absentee voting purposes only.

Civilian absentee voters, identified under the election law as any qualified, duly registered voter who will be absent from the county on election day, may apply from Oct. 7 to Oct. 31 by mail, or may vote in person at the county clerk's office Oct. 7 until noon Nov. 2. A voting booth has been erected in the hallway of the county clerk's office for absentee voting purposes, Miss Hotz said.

**Incapacitated May Register**  
Physically incapacitated persons who have never registered are now permitted by law to register upon filing an application on forms provided by the county clerk's office. The county clerk then appoints a registration team of one Democrat and one Republican to go to the home of the applicant and register him. Incapacitated persons who cannot go to the polls on election day also may apply for absentee ballots by mail.

Miss Hotz pointed out that under legislation passed in 1963 persons who have moved into Illinois less than a year ago and into the county less than 90 days prior to the Nov. 5 election may vote on the election of President and Vice-President only. Oct. 5 is the last day upon which application may be made for this short Presidential ballot, she said. The ballots will be available Oct. 21 in the office of the county clerk. Such ballots must be voted not later than noon Nov. 2.

## GC Steel Income To be Down with Furnace Failure

Nicholas P. Veeder, chairman and chief executive officer of Granite City Steel Co., wrote stockholders last week that the premature failure of a blast furnace will result in the company showing "a loss for the third and fourth quarters which will result in a loss for the year 1968 as a whole."

His letter to stockholders stated—

"We wrote our stockholders August 29 of the premature failure of the refractory lining of our 'B' blast furnace which meant we had no pig iron production with which to make steel. In line with our desire to keep the company's stockholders fully informed, this letter will bring you up to date on what has been accomplished during this critical period."

"The repair and relining of 'B' blast furnace has proceeded with dispatch. We expect to have the furnace ready by late September for the 'blowing in' process required to bring a blast furnace back into production. The new brick lining must be thoroughly dried out and we expect our basic oxygen steelmaking furnaces will be back in production by mid-October."

"We have already reported on our arrangements to buy a substantial tonnage of semi-finished steel from other American steel mills to supplement our large inventory of ingots and slabs which is now depleted. The purchased steel is arriving in quantity. We will be able to operate the rolling and finishing divisions throughout this period, although at reduced levels, and we are continuing to ship to and fill orders from our customers."

"3rd Quarter Report Oct. 21  
"We wrote previously that our costs would be substantially increased by the need to purchase outside steel and rebuild 'B' blast furnace. While it is impossible to predict the magnitude of our added costs, our stockholders should be informed that the company will show a loss for both the third and fourth quarters which will result in a loss for the year 1968 as a whole. Our third quarter results will be available to the board of directors Oct. 21 and, as always, made public at once."

"The unexpected failure of the blast furnace lining has placed Granite City Steel in a temporarily difficult position. However, we have been able to continue to fill our customers' orders. Although our current problems are substantial, they are short-term while our advantages are long-term—a growing market for our products, an ideal plant location from a shipping point of view and one of the most modern steel plants in the United States."

Layoffs at the plant now exceed 1200.

## Illinois in 1818—Edwards Served Both Territory, State as Governor

Ninian Edwards, born in Maryland in 1775 and educated at Dickinson College in Pennsylvania, was a prominent citizen of the frontier state of Kentucky when President Madison appointed him territorial governor of the recently created Illinois Territory in 1809.

Edwards had gone to Kentucky when he was 10 years of age. After 15 years in that state, he had achieved wealth as an entrepreneur and distinction as a judge.

At the time of his appointment, an appointment obtained for him by Kentucky Senators John Pope and Henry Clay, Edwards was chief justice of that state's Court of Appeals.

Earlier, the new governor had been a land speculator, a distiller and a tanner as well as a lawyer.

He came from that breed of pioneers that was always willing to pull up stakes and head for virgin territory with the expectation of doing better.

He achieved that greater success in Illinois, where he served as territorial governor until 1813.

Then, Illinois having become a state, Edwards became a United States Senator, one of the state's first two. He served in that position until 1824, when he sought and won election to a four year term as governor.

The Illinois Constitution of 1818 precluded re-election so, following the completion of his term, he devoted himself to his many business interests until his death at his home in Belleville in 1833.

John Moses whose "Illinois Historical and Statistical" is one of the best source books for those interested in the state's early history, has this to say of Edwards' Kentucky years:

"At the early age of 19, he (Edwards) left his parental roof, taking with him ample means to purchase and improve lands in Kentucky, where he laid out farms, built tanneries and distilleries, and erected houses."

Like many other young men, however, of warm and generous disposition, but wanting experience, he entered without restraint into all the excesses of society, as it then existed, and became dissipated.

"Having suddenly awakened to the fact that he had squandered his patrimony, impaired his health, and disappointed his friends, he formed the resolution to break away from his wild associates and thoroughly reform his life."

"This resolve he manfully carried out and never again fell into irregular habits."

Edwards, according to Moses, began life anew without a dollar, refusing the proffered financial aid of his father.

He moved from Nelson county to Logan county, Ky., where he studied and then began the practice of law.

Having established a lucrative practice, he amassed a fortune by prudent investments.

He served two terms in the Kentucky legislature and became, successively, presiding judge of the general court, circuit judge and finally chief justice of the Court of Appeals, the position he occupied when he was named governor of the Territory of Illinois.

Clay, speaking of Edwards' appointment, said:

"... his (Edwards) good understanding, weight of character, and conciliatory manners gave him very fair pretensions to the office (of governor)."

When Governor Edwards arrived at Kaskaskia, the capital of Illinois territory, the white population of the area he was to govern (the present states of Illinois, Wisconsin and that part of Minnesota lying east of the Mississippi river) was estimated at 900.

That of the Indians was believed to be approximately 18,000.

Nathaniel Pope, brother of Kentucky Senator John Pope, had been appointed secretary of the Territory, an administrative post second only to that held by Edwards.

Both men were held to be good administrators.

Edwards carefully avoided aligning himself with any of the factions in the Territory, of which there were quite a few.

He and Pope soon had the new government underway.

Edwards and the appointed territorial judges constituted the assembly, a territory of the first class being without an elected legislature.

Most of the laws previously in force were quickly re-enacted and the counties (St. Clair and Randolph) which had been formed during the Northwest and Indiana territorial days were reconstituted.

## Unjustified Lack of Urgency In Madison School Dispute

No one has a simple solution for the Madison school district teacher dispute that has prevented classroom instruction for the past three weeks, but parents are right in citing lack of diligence to resolve the issue.

The attorney representing Madison Local 763 has been so busy representing East St. Louis teachers that he clearly has not been able to devote full time and thought to the Madison work stoppage.

The school district waited an unnecessarily long time in going to court, and then did it in such a way that a further continuance occurred.

The state superintendent himself will take part by saying that instruction could be postponed as long as Oct. 28 without jeopardizing state tax aid.

Few actual discussions of possible settlement terms have taken place.

Urgency of the situation is felt keenly by students and their families, but the instances cited indicate less concern among the contending parties for an immediate settlement.

Madison pupils need to be taught — and they need it now. Who will give their side adequate attention?

## Renewed Interest By City Plan Commission In Renewal Program

Renewed interest by the City Plan Commission in the Granite City renewal plan which so many labored to prepare is encouraging.

Hopefully, Granite City aldermen will take an equally fresh and objective look at the program, adopt it and start the ball rolling toward rejuvenation of the downtown-hospital area.

The importance of reversing the trend downward in the central business district is emphasized by such projects as one that has been launched by the Northeastern Minnesota Development Association.

NEMDA, Executive Vice-President Robert J. Babich points out that downtown revitalization is important not only from a commercial standpoint (although increased commercial activity does generate still more economic growth and prosperity and broadens the assessment

taxes, and the same after taxes. Not a nickel of taxes being paid to Uncle Sam!

Republican precinct committee, convening after being elected at the September primary election, chose G. H. Lane, Alton, as chairman and F. L. Mannsma, Alton, as vice-chairman. Democrats named George A. Handon, Edwardsville, to head their Madison county central committee, with John W. Lewis, Edwardsville, as vice-chairman.

Lane succeeds William Penrose, Alton, who had been serving as GOP chairman for the past year since W. J. Lynch moved to the East.

Miss Anna Robertson was honored at a surprise farewell party. She will leave soon for her new home in Sharon, Pa. She was presented with a variety case, and music and dancing were enjoyed by the group, which included American Steel Foundry employees.

Present were Misses Wilma Barr, Evelyn Andrews, Leona Ott, Rose Kuntz, Lydia Hoyer, Hazel Coudy, Minnie Chalmers, Sylvia Seago, Nettie Brown, Clara Hoelscher, Clea Moss, Margaret Siefert, Agnes Tetherington and Mary Reid.

Cost here is being increased to \$4.75 a ton, Martha L. Connelie, district fuel administration secretary, reports.

base so that the property tax burden is eased for each family.

"Let's face it. Main street is the first thing a company on the prowl for a new plant site sees. Or, for that matter, tourists," Babich notes. "It is, in effect, your calling card."

If downtown is in trouble, a community's chances of losing industries and customers are high; but if it spruces up, expands and provides greater convenience for its consumers, prospects of "landing both new industry and out-of-town customers go way up," the Minnesota official believes.

City action is imperative if a bright future is to be assured for downtown Granite City and all local residents. When will the city act?

## Wise Decision to Resume Trials At the Granite City Courthouse

Madison county circuit court officials deserve hearty "thurs you" for their decision to resume scheduling a full range of court proceedings and trials in the Granite City court.

Despite sorrow over the sudden death of the jurist whose estate called for him to preside here next, life must go on and the judicial services so much a part of our governmental system must be maintained.

## Strong Support of United Fund Agencies Vital Despite Layoffs

With layoffs and strikes occurring simultaneously with preparations for the annual United Fund campaign, there may be a tendency by some to delay or reduce their financial support. This would be tragic, because the program of UF agencies are needed more now than ever before.

Agencies that depend on the United Fund for some of their operating finances include the Boy Scouts, Girl Scouts, YMCA, Protestant Welfare, Catholic Charities, USO, Teen Towns, Salvation Army, Red Cross, Children's Home and Aid Society, Visiting Nurse Association, Boys' Town of Illinois, Fraternal Society of Retired Members, Coordinated Veterans Services, Association for the Retarded, Family Service Agency, Health Services Fund, AFL-CIO Community Services, Arthritis Foundation and American Social Health Association.

These organizations not only aid those temporarily in need of basic assistance, they not only conduct vital character-building programs, but also provide many of the services that families of all income levels take for granted—very important.

The difference between an interesting, active, enjoyable community and one in which virtually nobody cared or did anything constructive.

Unless Quad-Cityans and Americans want to abdicate their personal responsibilities as citizens of a democracy, leaving everything to their government to do — and tax for — there is no choice but to do the things we voluntarily that people have shown they can do.

The United Fund is voluntary, but the alternative is one that would be a sad step backward. The "people helping people" approach is the only real answer.

Full support of the 1969 UF drive Oct. 7-Nov. 13 is a "must." Pledges can be made, with payment spaced out over the coming year.

## Transcontinental Scanning of Heartbeats By Short-Wave Radio

(American Institute of Biological Sciences)

Isolated medical stations, some within a year, will be able to transmit electronic signals of a patient's electrocardiograph (heart rate recording) to a receiving station thousands of miles away for expert interpretation.

The signals will go by short-wave radio, and the receiving stations will be the Duke Medical Center's emergency information service at Durham in North Carolina.

There the signals will be tape-recorded and fed into a computer for retransmission in the language of the electrocardiograph. Then the Duke Electrocardiograph Laboratory will interpret the electrocardiogram and tell what it means in terms of the patient's heart action.

A verbal interpretation will be transmitted back over international airways to the medical station and doctor from which it originated.

This project is made possible by a \$200,000 grant from the Elida B. Langley Charitable Trust of New York City, according to Dr. E. Croft Lonn, director of Project MED-AID and head of Duke's Division of International Health.

Dr. Lonn said the project is expected to be the forerunner of a system for long-distance transmission of various types of biological signals that would aid isolated doctors in diagnosis and treating their patients.

It would bring some of the skills and elaborate equipment of modern medical centers almost to the bedside of patients being treated by doctors with a minimum of equipment.

## Enrollment Gains To Be Moderate

(Taxpayers' Federation of Illinois)

The status of school finance and trends affecting it are of major importance in planning for the educational needs of the most important of these trends is the projection of enrollments.

In the fall of 1967, there were 57.6 million pupils enrolled throughout the United States in the regular schools, public and private, at all grade levels.

Total expenditures were estimated at \$52.2 billion for the school year 1967-68.

In 1960, enrollments in the regular schools totaled 46 million. By 1967, enrollments had increased by 25.2% to the 57.6 million figure, and are expected to rise by 5.7 million, or 9.9%, to 63.3 million by fall 1970.

The largest percentage gains in enrollment since 1960 have been in institutions of higher education. Enrollments in public institutions of higher education have more than doubled, increasing from 1960 to 1967.

The enrollment increase expected between fall 1967 and fall 1970 is more moderate. Enrollments in public higher education are expected to increase 5.2% by fall 1970 and to add an estimated 2.7 million pupils over the eight-year period, with most of the increase, or 1.5 million, coming in the next three years to 1970.

Public elementary and secondary enrollment totals are broken down as follows:

Public elementary and secondary—36.5, 4.3 and 46.5 million.

Private elementary and secondary—5.9, 6.9 and 7.1 million.

Public higher education—2.3, 4.6 and 6.9 million.

Private higher education—1.5, 2.1 and 2.8 million.

Percentage increases in 1960-67 and 1967-70 in these categories are: public schools, 20.7% and 6.2%; private schools, 16.9% and 2.9%; public universities, 108.7% and 43.9%; private universities, 40% and 33.3%; all schools and universities, 25.3% and 9.9%.

## Secondary Treatment 95% Effective

(Illinois Committee for Pure Air and Water)

microorganisms. The sludge filter process involves an artificial filter bed of crushed stone or other coarse material. Sewage is distributed over the filter and allowed to trickle through to underdrains.

Biological growths form on the surfaces of the filter bed and the sewage is purified by utilizing part of the waste materials for growth and energy.

With activated sludge treatment, sewage and activated sludge are agitated and aerated together. The microorganisms which purify the sewage develop in the activated sludge. This sludge is then separated from the treated sewage.

These secondary treatment processes can remove as much as 80% of the suspended solids and organic demands found in sewage.

While secondary treatment has often been considered complete, some pollutants are not affected by these processes. This calls for more advanced, or tertiary treatment of sewage to be 100% purified.

## Treaty Ratification Explained

(U. S. Department of State)

I am a high school senior and am taking a course in American government.

My question is: Who ratifies the treaties of the United States of America?

Several of my classmates insist that the President of the United States ratifies the treaties. Some others insist that the Senate ratifies them. Who is right?

R. L. Jr.

Dear Mr. L.: Article II, section 2, of the Constitution of the United States provides that the President "shall have Power, by and with the Advice and Consent of the Senate to make Treaties, provided two thirds of the Senators present concur."

Never a treaty is concluded (signed or otherwise adopted in final text), it is submitted by the Secretary or Acting Secretary of State to the president with a report thereon.

The President then transmits the treaty to the Senate with a message requesting that the Senate advise and consent to ratification.

When the treaty reaches the Senate, it is referred for consideration to the Committee on Foreign Relations, which may or may not hold hearings with respect thereto.

After such consideration as deemed appropriate, the Com-

mittee submits to the Senate its report, making a recommendation with respect to Senate action on the treaty.

If the Senate approves the treaty, it adopts in executive session a resolution in which it is stated:

"RESOLVED, (Two Thirds of the Senators present concurring therein), That the Senate do advise and consent to the ratification of the named treaty."

That the resolution, together with the treaty, is returned to the President and, from the White House to the Department of State.

Inasmuch as the President ratifies treaties, an instrument of ratification is prepared in the Department of State for his signature.

After signature of that instrument by the President and after signature thereon by the Secretary or Acting Secretary of State and the affixing of the Great Seal, arrangements are made for either exchange of instruments of ratification (in the case of a treaty) or for the deposit of the United States instrument of ratification (in the case of a multilateral treaty).

## Courts Aim for 12-Month Period for Civil Suits

Civil Suits are being tried in Madison county faster than in most counties in the state, according to Willard Portell, clerk of the circuit court.

He said attempts are being made to cut the waiting period to 12 months by the first of June of next year. The waiting period now is about 16 months, much less than in most counties, he noted.

A full-time jury schedule started this month, and the next nine months should show a large decrease in the backlog of jury cases in law over \$10,000, law under \$10,000, condemnations and chancery, he reported.

He noted that the Supreme Court has assigned an outside judge to serve here, to act in the place of the late Judge Austin Lewis, to keep the court from falling behind in jury cases.

In his monthly report, Portell said August usually is a light month in trying cases because of the vacation period, but there was a large work load in the ordinance, small claim and traffic divisions, and many of these cases were processed.

Pending at the end of the month were 1082 jury cases of more than \$10,000, an increase of 13 with 22 terminated and 31 started; 79 non-jury cases of more than \$10,000, an increase of one with 27 terminated and 32 started; 285 jury cases of \$10,000 and less, an increase of four with 12 ended and 10 started; and 645 non-jury cases of \$10,000 and less, an increase of 27 with 19 terminated and 52 started.

## Granite City Plan Commission May Revive Urban Renewal

A move to revive a Granite City Urban Renewal project that was killed by the city council a year ago was initiated by the City Plan Commission Thursday afternoon.

Commission members, meeting in regular session at city hall, voted to reconsider the project and then, if it is found feasible to do so, resubmit the plan to the city council with recommendations that it be approved.

William F. Hoelscher, chairman of the Plan Commission, said resubmission of the project to the council would be contingent upon all factors of the program being substantially the same as they were when it was a live issue in October 1967.

This particularly would involve the availability of federal funds for planning and for financing a large portion of the actual project, Hoelscher said.

He said all factors involved in the project are found to be the same as they were a year ago, or nearly so, the Plan Commission will recommend to the council that the project be revived and carried through," Hoelscher said.

The project first was initiated in mid-September 1967 when Mayor Donald Partney filed an application for a federal grant of \$1,166,798 with the Federal Housing and Urban Develop-

ment Agency to help finance urban renewal in a four-block area on the fringe of the downtown business district.

The project was designed to provide space for parking and revitalization of the downtown business district and for institutional buildings and parking in the expanding hospital area.

The four-block area designated for redevelopment includes:

The 1900 block of Grand avenue with exception of commercial buildings along 19th street and along 20th street and one residential structure.

The east side of the 2000 block of Grand avenue and west side of the 2000 block of Madison avenue; the west side of the 2000 block of Madison avenue and the east side of the 2000 block of Iowa street.

The east side of the 2100 block of Iowa street and west side of the 2100 block of Washington avenue.

Includes 24.9 Acres

Included in the four-block area are 24.9 acres with 87 buildings, of which 71 are classified as substandard. The structures include 67 residential buildings with 61 of them substandard, and 20 commercial or non-residential buildings, of which ten were found to be substandard.

Overall cost of the project when it was prepared a year

ago was projected at \$1,811,424, including \$60,594 for planning, \$81,800 administrative costs, \$883,055 for property acquisition, \$24,300 for site improvements, \$75,000 for site clearance, \$42,000 for interest, \$400,000 credit for the expansion program of St. Elizabeth Hospital and \$184,675 for contingencies.

Under last year's program the 118,800 square feet of commercial land would have a value of \$178,200 at \$1.50 per square foot. The 72,000 square feet planned for public parking would have an alternate commercial use and is valued at \$46,800, or 30 cents per square foot.

Relocations Required

Of the 87 buildings in the area, 75 would have to be relocated. Relocation would be required for 140 families, 16 individuals and 10 businesses. Cost of relocation was estimated at \$59,600.

In its original application the city sought \$1,166,798, or about three fourths of the total cost of the entire project, with the matching one-fourth to be covered by expansion of St. Elizabeth Hospital in which property has been acquired by the hos-

pital on the east side of the 2100 block of Iowa street and the east side of the 2000 block of Madison avenue.

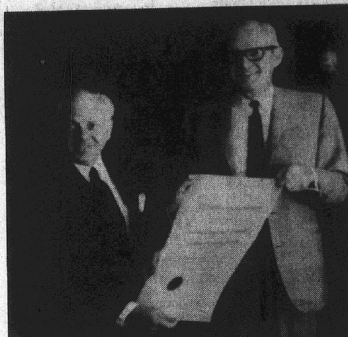

After the application for federal aid was filed last year with HUD, an ordinance authorizing Mayor Partney to file an application for \$60,594 in planning funds, available at that time from the Housing and Home Finance Administration, was introduced in the city council.

Permitted to Die

The council placed the ordinance on first reading in the regular council meeting of Oct. 2, 1967.

No further action was taken on the proposal.

Urban renewal development is one of the major recommendations of the new Granite City master plan covering the city's projected growth over the next 20 years. The plan, prepared by the Southwestern Illinois Metropolitan Area Planning Commission under sponsorship of the city, the park district, the Granite City school district and the Granite City Housing authority, was accepted officially by the City Plan Commission in the same meeting in which it decided to revive the renewal project.

# St. Elizabeth Hospital Expansion Parallels Growth of Community

THE NEW ANNEX for which ground will be broken Saturday will be located along the west side of Iowa street at 21st street. This view, looking northwest, shows the new emergency room entrance on 21st street.

## Groundbreaking Saturday for New Wing

A seventh step forward in the 72-year history of the area hospital will be taken at 11 a.m. next Saturday when groundbreaking ceremonies are to be held at 21st and Iowa streets for the new \$8,714,452 annex at St. Elizabeth Hospital.

The annex will include new operating rooms, new emergency facilities, an intensive care unit, extended care unit and a physical therapy department as well as related storage and service facilities and enlarged x-ray and laboratory facilities. Six floors of the seven-story wing are to be developed to enlarge the hospital to about 400 beds.

Hospital buildings will occupy the entire block bounded by Madison avenue, 21st street, Iowa street and Niedringhaus avenue. Parking is provided at the southwest corner of 21st and Iowa streets and in the 2100 block of Iowa, and the hospital also owns the old Illinois Terminal Railroad building, now the Tri Cor Medical building, on the southeast corner of 21st and Madison.

The latest expansion is being carried out under a \$7,619,024 construction contract awarded to S. M. Wilson & Co. of Granite City. The first hospital built at 21st and Iowa streets by the Lutherans had about 23 beds and was completed in 1905 at a cost of \$60,000.

The actual history of St. Elizabeth Hospital goes back a little farther to 1896, when Rev. Peter Kaenders, pastor of St. Mark's Church in Venice, with the help of residents of the area, opened a hospital in a two-story frame dwelling on Broadway.

The house was a gift, and four nuns staffed the makeshift hospital, but economically, it was unable to survive and was closed in 1898 to become the residence and office of Dr. J. W. Scott.

The little hospital in Venice was known as St. Elizabeth, named after Rev. Kaenders' favorite saint, St. Elizabeth of Thuringia. He also gave that name to the parish he founded in the Mitchell area—now St. Elizabeth Church and school at Johnson and Pontoon roads.

From 1896 until the Lutheran Hospital opened in 1905, local residents were forced to go elsewhere for hospital care. It was the Great Flood of 1903 that brought about a move by the Lutherans to build a community hospital.

The Lutheran Hospital opened in 1905 and went bankrupt in 1910. It seemed most persons in those days wanted private medical and nursing care in their homes.

Rev. Kaenders persisted on the community's need for a hos-

pital and borrowed and raised about \$50,000 to buy the structure. He reopened it in 1911.

Financial problems continued to plague the hospital, and the area's founding father of the local hospital was in declining health when he agreed to sell St. Elizabeth Hospital to the Sisters of Divine Providence in 1921.

Even then financial crises continued, resulting from labor unrest that followed world war I, but the community was growing and \$75,000 was borrowed to increase the size of the hospital to 50 beds.

Further community growth brought the next step in 1929 when a \$150,000 fund drive was started to build a 125-bed hospital at the corner of 21st and Madison avenue. The Sisters agreed to provide another \$150,000, and the building was completed at a cost of \$380,000 in 1931.

The Great Depression brought on another struggle for the hospital, but by 1941, it again became evident that war-time expansion of industries required more hospital beds. Application was made through the Federal Works Agency for a federal grant, and approval was given in 1943 for \$115,000 to build a five-story annex. In May 1944, the 30-bed addition was opened.

A further renovation with remodeling the obstetrical section at the same time cost an additional \$25,000.

Next, the hospital was faced with a different problem other than patient beds. The boiler room was inadequate. This was remedied in 1950 when \$500,000 was spent to build a new boiler room and laundry.

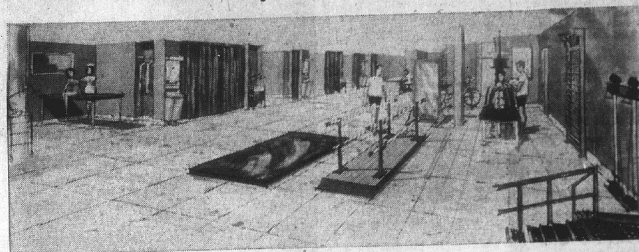

The newest annex will include further expansion of the boiler facilities and a new laundry.

In the 1950s, the local community continued to expand, and the need for hospital expansion once again became evident.

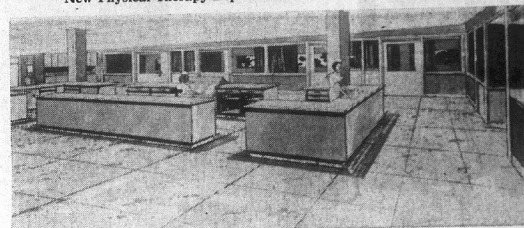

The R. W. Binney Memorial Wing was started in 1958 and completed in 1960 to boost the hospital capacity to 243 beds and 25 bassinets. It was carried out at a cost of about \$3,000,000.

By way of comparison, in 1921, the population of the local community was 23,648 and on that Tuesday, Jan. 3, 1921, when four Sisters of Divine Providence arrived to take over operation of the hospital there were seven patients.

Last year, St. Elizabeth Hospital cared for 12,107 patients with a total of 81,638 patient days recorded. In addition, there were 18,374 emergency cases.

## A WORD OF ADVICE FROM ILLINOIS POWER:

# Now is the time to check your chimney

If you heat your home with gas, coal or oil, now is the time to check your chimney flue. During the summer months, some chimneys become blocked with soot, bird nests or falling bricks. This creates a safety hazard when furnaces are used in the fall.

To check a gas furnace vent, hold a lighted match under the draft diverter. If the flame is pulled into the diverter, the vent

is clear and safe to use. If the flame blows back, the vent is blocked and unsafe.

To check a coal or oil furnace vent, remove the vent pipe and hold a mirror inside the chimney to see if it is clear.

If you have any questions on how to examine your chimney or furnace, just call your Illinois Power office. We'll be glad to advise you.

## 1000 See Mosburs Win 'Battle of Bands'

By VALERIE EVENDEN

### MORE ABOUT \$15 Millions

classroom addition to senior high, estimated to cost \$273,000. The second half of the proposed construction program calling for completion in 1983 of most new facilities that will be required to meet student demands of 1985, lists seven specific building projects.

**New High School**  
The plan recommends completion during the 1974-75 school year of a new senior high school in Planning District 4. The school would consist of 22 classrooms to accommodate 2000 students and would cost an estimated \$3,686,400, the plan reports states.

During the same year, the report states, the district should complete construction of a 300-student elementary school of 18 classrooms to replace the present Washington school. Cost of this project is estimated at \$668,600.

Recommended for completion during the 1976-77 school year are a new elementary school of 23 classrooms to accommodate 635 students in Planning District 4, and a new senior high school of 36 classrooms for 1000 students, also in Planning District 4. Cost of the elementary school is estimated at \$915,100 and that of the junior high school is fixed at \$1,834,200.

During the 1978-79 school year, the plan report recommends opening of a new 15-room elementary school to accommodate 425 students in Planning District 5 at a cost of \$805,000.

**Propose Other Facilities**  
Completion of the elementary school of 15 classrooms for 425 students, also in Planning District 5, is recommended during the 1980-81 school year. Cost of this unit also is estimated at \$805,000.

Final phase of the proposed building program calls for the opening during the 1982-83 school year of a new 33 classroom elementary school for 910 students in Planning District 3 at an estimated cost of \$1,312,100.

The report notes that this program is based upon student needs under the 6-2-4 grade system, and that if the elementary school is retained, the 6-3-3 system, considerable revision upward of building facilities at junior high level would be necessary.

Revision of the upper grade facilities, the report states, would include another 1500 capacity junior high school to be opened during the 1970-71 school year, a new 25-classroom addition to the present senior high to be opened during the 1972-73 school year, and the recommended high in Planning District 3 to be opened during the 1976-77 year; a 15-room classroom addition to Grigley Junior High school and conversion of Coolidge Junior High to senior high use during the 1976-77 year, and opening of a new 15-room junior high school east of Route 111 during the 1978-79 year.

**Band Issue Necessary**  
To bring about accomplishment of such an extensive program, the plan report says that "it would be necessary for a bond referendum in the amount of \$4,400,000 to be passed in 1968-69."

It would also be necessary for the district to obtain referendum authority to accumulate an additional five percent tax rate in the building fund for a five-year period, which would help pay for the construction of new schools.

"The district also would need to plan for another bond referendum in 1972-74 to obtain authority for additional accumulation in the building fund for another five-year period in order to pay for construction of a new senior high," the report continues.

Assuming that significant new financial aid is not forthcoming from the federal or state government or is not approved, the plan asserts, another remaining alternative left to the district is to go on double debt.

**Could Jeopardize Aid**  
"Of course," the report warns, "if the district remains on double debt for longer than one year, it could lose its accreditation. As a result, state aid, which is based on average daily attendance, could be jeopardized and adult and vocational education programs at the high school could be adversely affected or may even have to be discontinued."

If phasing out of the older buildings and modernizing of structures was delayed several years, the report says, the expenditure for new buildings would be reduced. However, this alone would provide only 10.6% of the additional space needed by 1985. Continued use of these facilities can compromise the effectiveness of the facilities they serve, and the disproportionately high expenditures for maintenance, or a disproportionately high expenditure for transportation, the plan states.

More than 1000 widely enthusiastic teenagers heard the "Mosburg Shotgun" declared winner over nine other local musical groups in the first annual "Battle of the Bands Contest," staged yesterday afternoon at the Wilson Park rink pavilion.

Loud cheers also greeted the announcement that Chris Hamilton, drummer and leader of "The Rising Sons," which placed second in the overall contest, had been voted outstanding individual instrumentalist in the show.

For over four hours, nearly 1100 teenagers and adults listened to the musical stylings of ten local groups. Most displayed pop, showmanship and rhythmic knowledge in the 1968 beat style.

The winning band performed without its leader, and colorful group of teenagers in the 20, a pre-med student at SIU-SW, who re-vamped the group's entire program after learning it would exceed the contest age limit at the time of the state finals next spring.

Ironically, the Mosburg Shotgun's closest competition came from "The Rising Sons," a group organized and led by Hamilton prior to his present band.

Third place winners, the "Marty May" a western rock group, also received strong support from the contest judges, followed by the "Burlington Roadies."

First place winners were awarded a \$100 gift certificate from John Johnson's Music store, second place—\$50 gift certificate from the National School of Music; and third place, a \$25 gift certificate from John Fornasewicz's Music store.

Pete Maer of Granite City, disc jockey at Radio Station Kase-FM, served as master-of-ceremonies. Albums and other gifts were given to the crowd by Kase and Radio Station Wgn.

Dr. Robert E. Schmidt, Jaycees project chairman, introduced Mayor Donald Partey.

should be determined by the state legislature, but the district should avoid establishing large service areas in order to minimize the impact of toll charges on transportation costs, it continues.

**Suggest Finance Plan**  
According to the plan report the present bonding cap on the district's debt does not provide the capital necessary for the construction of facilities needed by 1985. Therefore, the report notes, a combination bond referendum and building fund accumulation will be necessary.

"This is only one solution, and there are many others that may be equally suitable, the report states, adding that the final analysis, continuation of the fine school system now provided in Unit District 5, and the rapidly increasing student population."

In summarizing the various phases of the extensive planning study made by SIMAPC, it is expressly noted by the authors of the report that the effectiveness or regional and community planning in the Southeastern Illinois area depends to a large degree on support from local communities.

**Support Substantial**  
"The support has been substantial to date; however, even greater concern, public awareness and active support is necessary to improve the socio-economic environment and to guide the future physical development of the area."

Planning, the report emphasizes, is a responsibility and a privilege of local government. It is neither a luxury or a fashionable status symbol reserved only for the larger and wealthier communities. . . . On the contrary, planning is a necessity that even the smallest communities can ill afford to be without.

## Salaried Workers At Dow Kept Off Jobs by Pickets

Salaried employees at the Madison plant of Dow Chemical Co. were kept out of the plant this morning by striking steelworker pickets.

It was the first attempt to keep salaried employees off their jobs and company officials announced they will file injunction proceedings if the pickets as soon as a complaint can be prepared.

Meanwhile, no negotiation meetings have been scheduled since contract talks were broken off late Thursday afternoon.

The strike of 700 members of United Steelworkers of America Local 484 went into its 17th day this morning as the result of a deadlock over terms of a new contract agreement. The strike began at 12:01 a.m. Aug. 31 upon expiration of the old contract.

**Pickets Halt Cars**  
Approximately 25 pickets ranged across the plant entrance this morning, halting cars of salaried employees who reported for work at 7 a.m. at 8 a.m. and again at 9:30 a.m.

There were no incidents, but police said the picketing was orderly. Employees who pulled into the entrance drive and stopped, they could not enter because of the pickets, left without incident.

Company officials described this morning's incident as "mass picketing" and issued this statement:

"The picketing at the Madison plant of Dow Chemical Co. blocked salaried employees attempting to enter the plant at 7 a.m. and 8 a.m. The mass picketing climaxed a night of vandalism during which street lights and plant windows were broken and numerous bottles smashed on the plant driveway."

"The night activities were led by members of the bargaining committee for Local 484, USA."

"The company will seek an injunction so that non-striking employees can enter the plant and violence will be restrained."

"There have been numerous incidents of vandalism since the strike began Aug. 31 and a number of attempts have been made to harass salaried employees and their families."

George Becker, district representative of the steelworkers was reported out of the city this morning and could not be reached for comment.

Two incidents on the picket line were reported Friday by Venice police.

Receiving a call on a disturbance in the plant area, District 10 and Weaver streets, Chief John Eastington went to the scene about 5 p.m. and found a crowd of young children were urinating and other debris in the street and as he got out of his car, a man threw a brick at him and under the chief's car. Taken into custody was Jack Ficker, 27, of Louisville, who was charged with littering the streets, resisting arrest and disorderly conduct. His hearing is set for Sept. 2.

**Arrested in Venice**  
For Breaking Bottles  
Lloyd Hemmingsway, 36, of 213 Second Street, was arrested by Venice police at 12:45 a.m. today on a charge of disorderly conduct when police found him breaking bottles on a slung shot at Douglas and Weaver streets.

Police said Hemmingsway set the bottles up along the sidewalk, had broken two bottles and was trying to hit a third one when they arrived. Hemmingsway was held in jail this morning.

## Rev. John Range to be Ordained as Benedictine

John Joseph Range, son of Mrs. George Range, 2344 Lynch avenue, and the late John Louis Range, will be ordained as a Benedictine priest Sunday at St. Meinrad's Archabbey, St. Meinrad, Ind.

The Sacrament of Holy Orders will be conferred by Most Rev. Paul Schulte, archbishop of Indianapolis. The new priest has accepted the religious name of Father Louis.

He will celebrate his First Solemn Mass of Thanksgiving at 3:30 p.m. the following Sunday, Sept. 22, at St. Elizabeth's Church here. It will be a consecrated Mass, with other priests participating at the altar.

A reception will follow the Mass in the parish hall.

Father Louis became a member of the Benedictine order five years ago and remained at St. Meinrad's where he conducted theology and other studies.

Born in Cahokia, he moved to Granite City at the age of two and attended St. Joseph's parochial school. St. Meinrad's preparatory seminary in Belleville and Assumption high school in East St. Louis.

He attended St. Mary's University, San Antonio, Tex., where he received his degree about eight years ago.

**3 GC Police Officers To Attend Conference**  
Three Granite City police officers are to attend a "Conference on Suicide" to be held tomorrow night at the University Center at Southern Illinois University-Southwestern campus.

The conference, sponsored by the Mental Health Association of Madison and St. Clair counties, is designed to curb suicides and attempted suicides. It is reported there is one suicide a week in the two counties and as many as eight to ten attempts.

Attending will be Detective Hancil Bailey, Juvenile Court Judge Charles F. Thompson, Louis Mark, it was announced yesterday by Assistant Police Chief George Teller.

Chief Calvin J. Frederick, assistant chief of the center for studies of suicide prevention at the Institute of Mental Health, will give the major address during the one-day meet.

State Atty. Gen. Scroggins also is scheduled to participate.

**Three Dogs Poisoned, Parents are Cautioned**  
Three dogs owned by residents of the 2300 block of Cleveland blvd. were poisoned Friday night and Saturday morning. State Atty. Gen. Scroggins urged to take caution and remove any material suspected to contain poison.

Two of the dogs were dead upon arrival at the Bellefonte Animal Hospital where Dr. H. H. H. veterinarian, determined that the substance was strychnine. The other dog was taken to the hospital in time and was saved.

Mrs. Larry Atkinson, 2316 Cleveland blvd., who lost a three-year-old pet, said one of the dogs was confined in a fenced-in yard, and that a mouse was found to be in convulsions before it died.

Police and the humane officer were notified, and authorities were along with a pharmacist to determine who has made recent purchases of strychnine.

## Navy Oks Enlistment For Underwater Team

The Navy's Bureau of Personnel is announcing the implementation of a program whereby Navy recruits can guarantee new enlistees that they will be accepted for Underwater Demolition Team training — if they can pass rigorous tests.

Formerly, volunteers for UDT training had to be recommended by Fleet commanders; in short, openings were filled from within the Navy.

Now, however, qualified recruits can be told they have a chance to join what has been called the finest and toughest group of fighting men in the Navy.

An area Navy spokesman, Lt. Comdr. Paul Fawks, USN, executive officer of the St. Louis Navy recruiting district, said each year 700 new men are needed for UDT training.

He said recruits' personal files could be "red flagged" to indicate these men were volunteers for UDT training and that they would, if found qualified, proceed to UDT training sites upon completion of recruit training or technical training.

He stressed, however, that recruits can only guarantee new recruits the chance to qualify — not that they would automatically become full-fledged UDT men. A resume of the training "frogmen" must be complete, alone would be enough to illustrate why only the most highly motivated men in top physical condition can qualify.

Before any volunteer can become a part of UDT, he must prove he can master the professional, mental and physical requirements.

Young men who may be interested can obtain further information from any Navy recruiting station. A Navy recruiter has a desk in the ground floor lobby of the city hall in Granite City.

## Law Firm Sues GM&O On Conspiracy Charge

The law firm of Chapman, Strawn and Kinder has filed suit for \$25,000 actual and \$150,000 punitive damages against the GM&O railroad and Weyman Jobe, its claims agent, charging conspiracy with a client.

The complaint alleges that the firm was employed by Jack W. Maxwell sr. to represent him in a complaint against the railroad for personal injuries sustained last May 22 while he was in the employ of the railroad.

The firm claims that Jobe tried to get Maxwell to repudiate his contract and either assisted or procured or acquiesced in his sending a letter from Venice to Chapman, postmarked Aug. 1, trying to discharge him from prosecution of the claim.

Jobe is charged with conspiring with Maxwell into prematurely releasing a claim against the railroad without the advice of counsel or opportunity for trial in violation of the law. The railroad subsequently entered into a settlement agreement, the complaint states, and that the lawyers involved suffered a loss of professional dignity and integrity.

## Rainfall in State Slightly Below Normal

Illinois rainfall for the summer of 1968 was slightly below normal, but totals in most sections of the state, combined with near-normal temperatures, are not expected to be limiting to crop production, State Water Survey, reported.

June through August rainfall was 10 to 15% below season normals in most of Illinois and dropped to 30% below normal in the southwest. However, northeastern and east-central Illinois had summer totals 1.5 inches above normal.

**Auto Strikes Truck**  
Unable to stop, an auto driven by Melvin R. Havron, 2805 Marshall avenue, struck the right rear of a tractor-trailer truck driven by Anthony J. Van Wyck, Lodi, N.J., at 4:35 p.m. Thursday at 21st street and Madison avenue.

SCOUT FAIR PARTICIPATION and ticket sales campaigns are in progress throughout the Cahokia Mound Boy Scout Council. These Uniwah (Quad-City) district scouts are among those coordinating the twin efforts to arrange booth displays and encourage attendance by the public Oct. 11-12. Pictured (left to right) are Beryl Reed, Frank Kraus, Virgil Johns, Bruce Wright, Camping Chairman Fred Hacke, Activities Chairman John Pekarik, Don Teaney, Russ Lyons, Ray Wentz, Glenn Hommert and Charles Taylor.

## Quad-City Boy Scouts Total 2032; Plans Made for Fair

Registration of boys in the Uniwah (Quad-City) Boy Scout district has reached a record 2032, exceeding the current goal, it was noted at a monthly dinner meeting of district representatives Thursday evening at the Grand Cafe annex.

An annual fall "roundup" recruiting effort is in progress to keep pace with goals linked to the National Boy Scout Council's "Boyspower '70" program. The eight-year program also includes quality goals reflected by increased training of leaders and retention of most of the scouts from one year to the next year's cohort.

Eighty-three Uniwah units (cub scout packs, scout troops and explorer posts) are in operation, topping the December 1968 goal of 80, but re-registration of 16 units with charters expiring between now and Oct. 31 will be necessary, District Executive Edwin Menke Jr. and Assistant District Executive Wilbur Irelan reported.

**Annual Banquet Nov. 14**  
A nominating committee is being formed, and the annual district banquet is set for Nov. 14 at St. Elizabeth Catholic Church, it was announced.

Menke reviewed proposed explorer post rules calling for future membership by girls as well as boys.

Hacke discussed the 1968 camping program, listing total attendance at Camp Sunken, Potosi, Mo., of 811 boys and 81 adults, including 393 and 28 from Uniwah.

District Commissioner Edward Stone reported plans for a commissioner conference Oct. 25-26. District Chairman William F. Winter presided.

## A. O. Smith Supervisor, Chas. Moore, 38, Dies

Charles Edward Moore, 38, of Peoria, Ill., a supervisor at the local plant of A. O. Smith Corp. for 15 years, died Friday morning at his home. He had been in failing health for a year.

Mr. Moore is survived by his wife, Margaret Ann, a son, Charles Jr., and a daughter, Charlotte Ann Moore, both at home; his father, Lee M. Moore of East St. Louis, and a sister, Mrs. Pat (Shirley) Lucier of East St. Louis.

Funeral services were held this morning at St. Joseph's Church, East St. Louis.

## Leaves for Training

Marine Pvt. Richard L. Bartling, a son of Mr. and Mrs. Glenn Bartling, 2546 Pontoon road, left the past week for "Boot" training at San Diego, Cal.

## Four Divorce Decrees Issued Area Couples

Four divorce decrees were issued last week to Quad-City area couples in Madison county circuit court at Edwardsville.
